What are the Program Learning Outcomes?

A learning outcome is a description of the knowledge, skills and abilities you will gain as you complete your coursework.

1. Students will describe concepts and principles of ABA.

2. Students will interpret and evaluate research data to determine treatment efficacy and modification or discontinuation of interventions.

3. Students will identify ethical guidelines and apply standards of professional practice in ABA.

4. Students will identify and implement appropriate behavioral assessments and intervention procedures to promote positive behavioral change.
