
MGA Cochran Campus Spill Response – Quick Reference Guide

Spill Response Procedures for MGA Personnel

- Whenever a spill is detected, regardless of quantity, MGA personnel should immediately notify the Oil SPCC Coordinator at 478-934-3054.
- If not available, notify the alternate Oil SPCC coordinator at 478-934-3008
- **If not available OR after hours Notify MGA Cochran Campus Police: 478-934-3002**
- Once the Oil SPCC Coordinator, alternate Oil SPCC Coordinator, and/or MGA Cochran Campus Police has been notified, trained MGA personnel should follow the steps in the attached flow chart entitled “Steps for Response to an Oil Spill or Release”.

Oil Releases to Water

If any oil, including a petroleum product, is discharged to waters of the state (including streams, rivers, storm sewers, and drainage ditches), the Oil SPCC Coordinator or his designee will immediately report the incident to:

- Georgia EPD, Emergency Response (800) 241-4113
(24-Hour Statewide Number to Report a Spill of Oil or Hazardous Material)
- USEPA Region 4 (24-Hour Spill Reporting Number) (404) 562-8700
- National Response Center (NRC) (800) 424-8802

Response Contractors

For spills that are beyond the capabilities of MGA-Cochran employees and equipment, the Oil SPCC Coordinator will contact an emergency response contractor. The Oil SPCC Coordinator and Alternate are the primary responsible parties at the MGA - Cochran Campus for the coordination of any response and clean up effort.

- MKC Enterprises (800) 457-6521 (770)
