Christy is teaching at both the Macon and Warner Robins campuses for the Fall Semester. Her home campus is designated as **Macon** by the chair of her department. On Tuesdays she teaches at both the Macon and Warner Robins campuses. Her mileage should be calculated as such:

Miles from Macon Campus to WRC + (Miles from WRC to residence – Normal commute Miles to Home Campus) = Miles Entitled for Reimbursement

Miles from Macon Campus to WRC = 22mi
Miles from WRC to residence = +19mi
Normal commute Miles to Home Campus (Macon) = -7mi
Net Miles for Reimbursement = 34mi

**For this example, the commute mileage is only deducted on the return trip as Christy began her day on the Macon campus**

Exceptions include:

- If travel occurs on a weekend or holiday, mileage is calculated from the point of departure with no reduction for normal commuting miles.
- If an employee does not regularly travel to an office (home campus) from his/her residence (i.e., the residence is “home campus”), the requirement to deduct normal commuting miles does not apply.
