

## Associate of Science with a major in Nursing, Dublin

Semester reporting: Fall Semester 2020

Reporting cycle: Semester Reporting Cycle

### Academic Program Assessment by Location Report Information

Prepared on: 7/1/2021 10:58:27 AM	Prepared by: kendra.russell@mga.edu
	Email address of person responsible for this report: kendra.russell@mga.edu
In which school is this program located?	Health and Natural Sciences
Program Type:	Undergraduate
Approximately how many students are enrolled in this program at this location?	93

## Student Learning Outcomes

### SLO1

7. SLO 1: What is the first Student Learning Outcome for this academic program? Student Learning Outcomes should be stated in measurable terms (i.e. students will be able to.....)	Evaluate nursing care to clients and families across the lifespan from diverse backgrounds in a variety of settings that is compassionate, age and culturally appropriate and based on client's preferences, values and needs.
8. SLO 1: What instrument (assessment type) was used to measure student's ability to demonstrate mastery of this learning outcome? (i.e. exam, assignment with rubric, speech, demonstration of ability, lab assignment)	N2010 Culture Report 3rd semester
9. SLO 1: What target performance level would a student need to achieve on the assessment instrument to demonstrate mastery of this learning outcome? (i.e. 80% of all students will earn an average grade of 75% or better on....)	95% of students will earn A grade of "85" or higher on the culture report in N2010 (35/35)
10. SLO 1: During this assessment cycle, what percent of the students who participated in this assessment demonstrated mastery of this learning outcome? (this should be a number between 0-100)	100
11. SLO 1: Evidence of changes based on an analysis of the results: What changes were implemented based on an analysis of the students' performance on this Student Learning Outcome?	Goal met and there were no changes implemented at this time. Program will continue to monitor.

## Student Learning Outcomes

### SLO2

12. SLO 2: What is the second Student Learning Outcome for this academic program? Student Learning Outcomes should be stated in measurable terms (i.e. students will be able to.....)	Demonstrate use of best current evidence and clinical expertise when making clinical decisions in the provision of patient-centered care.
13. SLO 2: What instrument (assessment type) was used to measure student's ability to demonstrate mastery of this learning outcome? (i.e. exam, assignment with rubric, speech, demonstration of ability, lab assignment)	N2500 Final (#s 12, 13, 21, 23, 29, 61, 68; following questions added #s 67, 81, 91 for Fall '20 class)
14. SLO 2: What target performance level would a student need to achieve on the assessment instrument to demonstrate mastery of this learning outcome? (i.e. 80% of all students will earn an average grade of 75% or better on.....).	70% of students will answer correctly seven questions related to "clinical decision making and best current evidence".
15. SLO 2: During this assessment cycle, what percent of the students who participated in this assessment demonstrated mastery of this learning outcome? (this should be a number between 0-100)	73.51
16. SLO 2: Evidence of changes based on an analysis of the results: What changes were implemented based on an analysis of the students' performance on this Student Learning Outcome?	Expected level of achievement met. For fall 2020, the number of questions related to clinical decision making and best current evidence on the N2500 final was increased to 10. During the ASN committee meeting on 5/11/2020, faculty discussed the importance to review all exams in all nursing courses to evaluate if questions related to clinical decision making and best current evidence are on exams. Questions were updated and blueprinted to reflect this category during Fall 2020.

## Student Learning Outcomes

### SLO3

17. SLO 3: What is the third Student Learning Outcome for this academic program? Student Learning Outcomes should be stated in measurable terms (i.e. students will be able to.....)	Promote the development and implementation of quality improvement strategies to advance health care services.
18. SLO 3: What instrument (assessment type) was used to measure student's ability to demonstrate mastery of this learning outcome? (i.e. exam, assignment with rubric, speech, demonstration of ability, lab assignment)	N2500 Clinical evaluation tool
19. SLO 3: What target performance level would a student need to achieve on the assessment instrument to demonstrate mastery of this learning outcome? (i.e. 80% of all students will earn an average grade of 75% or better on.....).	90% of students will satisfactorily provide an example of quality improvement processes identified in the clinical setting while precepting.
20. SLO 3: During this assessment cycle, what percent of the students who participated in this assessment demonstrated mastery of this learning outcome? (this should be a number between 0-100)	100
21. SLO 3: Evidence of changes based on an analysis of the results: What changes were implemented based on an analysis of the students' performance on this Student Learning Outcome?	Expected level of achievement was met. Continue to utilize the updated N2500 clinical evaluation tool during the 4th semester as part of the evidence of achieving EPSLO 5. ASN faculty need to continue to monitor the examples that students give for "quality improvement" to be sure students are grasping this concept.

## Student Learning Outcomes

### SLO4

22. SLO 4: What is the fourth Student Learning Outcome for this academic program? Student Learning Outcomes should be stated in measurable terms (i.e. students will be able to.....)	Practice nursing in a professional, ethical and legal manner.
23. SLO 4: What instrument (assessment type) was used to measure student's ability to demonstrate mastery of this learning outcome? (i.e. exam, assignment with rubric, speech, demonstration of ability, lab assignment)	ATI Comprehensive Predictor score
24. SLO 4: What target performance level would a student need to achieve on the assessment instrument to demonstrate mastery of this learning outcome? (i.e. 80% of all students will earn an average grade of 75% or better on.....)	A group score of 70% will be achieved in: *Professional Identity
25. SLO 4: During this assessment cycle, what percent of the students who participated in this assessment demonstrated mastery of this learning outcome? (this should be a number between 0-100)	71.6
26. SLO 4: Evidence of changes based on an analysis of the results: What changes were implemented based on an analysis of the students' performance on this Student Learning Outcome?	Expected level of achievement was met. Continue to utilize the ATI Comprehensive Predictor as a part of the evidence of achieving EPSLO 7. In Fall 2020, the proctored version of the Comp Predictor was given on the Dublin campus on 11/18/20

### Sampling

27. How many students participated in the assessment of these learning outcomes, in this program, for this assessment cycle at this location?	34
---	----

### Open Box for Assessment Comments

28. In this field, please document the overall use of assessment results for continuous improvement and Open Text Box For Assessment Comments:	Program data is reviewed by campus and reviewed for trends annually. Information is shared with Nursing Advisory Group for feedback. Target measures and instruments are regularly reviewed for updates as needed.
29. If the COVID-19 pandemic impacted this assessment cycle, please provide specific details below.
