Open Box for Assessment Comments

Required: In this field, please document the overall use of assessment results for continuous improvement (consider the past, present, and future and specifically address these in your narrative).	Data is collected in the program's systematic plan of evaluation. Data is presented at ASN committee meetings in the spring. Faculty make recommendations for target goals and instruments. There are usually two measures for each SLO. Changes are made to the course and program as warranted by the trends. Information is shared with the advisory board for feedback as well.
