Departmental Mission and Goals

The mission and goals of the department should be consistent over a 5 year period, although some institutional changes may necessitate and prompt a change in mission or goals for specific departments. In this section, you will report the mission statement for your department as well as the long term goals (5 year range) for the department.

Objectives

Each year, every department should identify objectives the department hopes to accomplish in the next year. These should align with departmental goals and the MGA strategic plan. In the next section you will be reporting on the objectives you set and whether or not you achieved them in FY20. Later in the document you will report on objectives you hope to accomplish in the coming fiscal year, FY21.

Future Plans

Please identify and detail three to four measurable objectives for the next fiscal year. In listing the objectives, please use the format shown in these examples.1) The Department of X will improve services levels by 5% as measured by our satisfaction survey. 2) The department of X will provide training in ABC for at least 73 MGA faculty and staff.

1. MGA Library will increase the number of individual appointments librarians have with faculty. The Library will increase these appointments by 10% by comparing the number of appointments from the previous year (Imperative 3: Build Shared Culture). 2. MGA Library will calculate the number of events and/or trainings offered by librarians to faculty. This will be a baseline year for us because this data/information was not collected last year (Imperative 3: Build Shared Culture). 3. MGA Library will increase the number of individual appointments librarians have with students. The Library will increase student appointments with librarians by 20% by comparing the number of appointments from the previous year (Imperative 2: Own Student Success). 4. MGA Library will increase the number of online and face-to-face library instruction sessions. The Library will increase the number of online and the number of face-to-face library instructions sessions by 5% by comparing the number of online and face-to-face library instruction sessions from the previous year (Imperative 2: Own Student Success).

Based on this assessment, please share your thoughts on the current status and future direction of this department or area.

We are working to build a culture within the MGA Library that is data driven. We have made progress by streamlining where, when, what, and how we collect data. Several new data portals will be used in FY 2021.

| Open Text Box For Assessment Comments: | In spite of very specific directions, I failed to include target outcomes that represented a specific percentage increase and/or a specify number in the Library assessment for last year. I have remedied that error with our new FY 2021 objectives. | |
|---|---|--|
| If the COVID-19 pandemic impacted this assessment cycle, please provide specific details below. | The Library attributes both the decrease in face-to-face library instruction and the increase in our online library instruction to teleworking because of COVID. I suspect that both numbers would have experienced a slight increase if we had not moved both our 2020 Spring and Summer semesters online. | |
