

CAN YOU DO CPT?

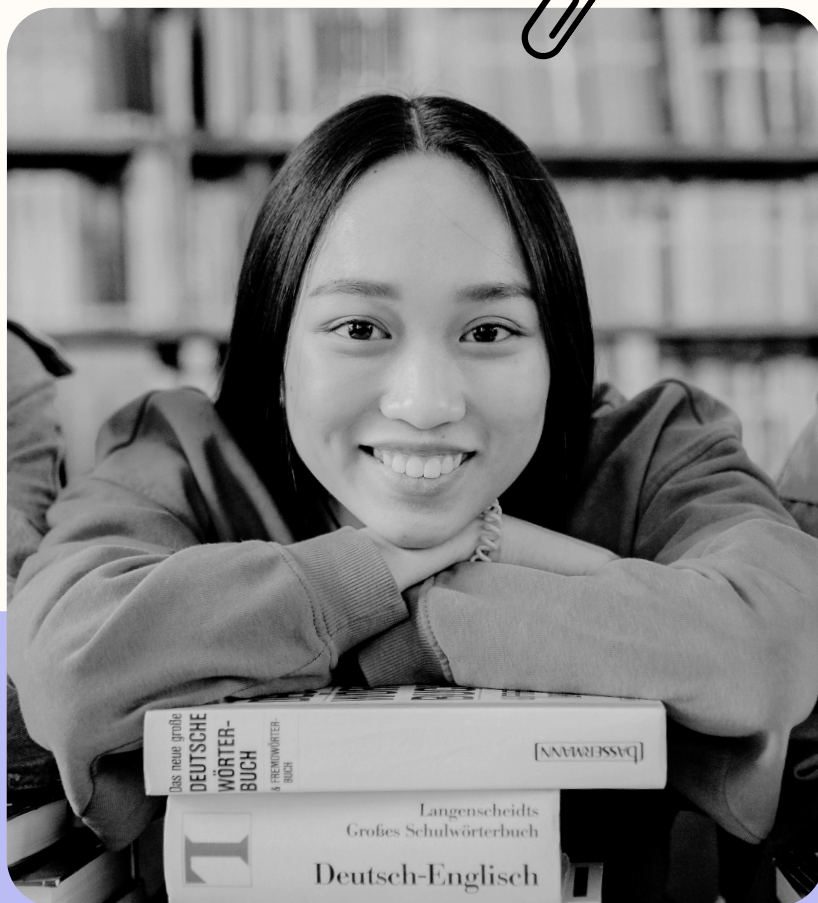

WHAT IS CPT?

Curricular Practical Training (CPT) is a great opportunity for F1 students to gain hands-on off-campus field experience while also earning course credit. Only certain programs allow CPT for specific courses.

PROGRAMS ELIGIBLE FOR CPT

Aviation Science and Management B.S.
Biology B.S.
Biology B.S./Secondary Education Track
Business Administration B.S.
Business Administration B.S./Accounting
Criminal Justice B.S.
Elementary/Special Education B.S.
English B.A./Secondary Education Certification Track
Health Science B.S.
History B.A.
Mathematics/Secondary Education Certification Track
Media and Communication B.A.
Nursing B.S.N.
Political Science B.S.
Rehabilitation Science B.S.
Respiratory Therapy Completion Program B.S.R.T.
Respiratory Therapy Entry Level B.S.
Sport Management B.S.

A program that allows any general electives could potentially be approved as an internship for CPT. The internship course must meet a degree requirement. If the internship displays as a 'fall-through' course, it will not be approved for CPT. The course must be taken for a grade and count towards the degree. Audited coursework does not apply.

DEADLINE

You should start the process 90 to 30 days before your job begins.
