Welcome to
MGA Cochran
traditional campus, contemporary community

Middle Georgia State University
Why MGA Cochran?

traditional campus, contemporary community

The Cochran Campus, located in Bleckley County not far from I-16, offers all the advantages of residential university life.

Soak up the beauty of the traditional quad, old oaks and white-columned academic buildings while living and socializing in one of the residence halls.
Student Life

Through a wide array of Student Life programs, students have many opportunities to participate fully in the campus community. From theatre, concerts and festivals to recreational programs, sports and Greek Life, the campus has it all.

Intercollegiate Athletics

MGA’s sports teams – members of the National Assoc. of Intercollegiate Athletics – are based on the Cochran Campus. Play with or cheer on the Knights basketball, baseball, softball, soccer and tennis teams. MGA also has Club football, cheer squads and a marching band.

Student Support Services

The path to a degree is made easier with academic resources. Students have access to tutors, mentoring programs and writing workshops. Living-Learning environments promote student engagement and success.

University College

University College is a program for students who need extra support in their transition to university-level education. Students live on campus with peers, where they receive ongoing academic assistance, participate in Student Life and enjoy a traditional university experience.
Find your greatness.
