HEALTH SERVICES ADMINISTRATION
THE BUSINESS AND MANAGEMENT SIDE OF HEALTHCARE

Our Bachelor of Science in Health Services Administration program focuses on the organization, financing and delivery of health care services. Our program emphasizes the administrative role in ensuring quality services for patients and supporting community health education. Employment opportunities include:

- Long-Term Care
- Health Care Marketing
- Clinical Administration
- Sports Fitness Management
- Pharmaceutical Sales

CONCENTRATIONS

PRACTICE / CLINICAL MANAGEMENT
- Organization and operation management of the business aspects of a health care provider's office, such as physician, dentist, hospital and clinic

LONG-TERM CARE ADMINISTRATION
- Employment in skilled nursing facilities, assisted living facilities, group homes and hospices

SPORTS AND FITNESS MANAGEMENT
- Management positions within the broad field of health and fitness such as sports promotion, corporate wellness, personal training, health promotion and sports club management
- Foundation for pursuing graduate work in fields such as sports medicine, exercise physiology, physical and occupational therapy, and athletic training

FAST FACTS
- Integrates courses from the fields of health sciences and business administration
- Focuses on the relationship between theory and practice through the identification and resolution of problems unique to health care
- Offers an excellent opportunity for those already in the health care field to leverage their experiences into management positions
- Provides a foundation for graduate study in health administration, public health, business and other related fields
- Meets the demands of a wide variety of student types and career goals through flexible scheduling, including day, evening and online classes
