

Connect Using WPA2-Enterprise in Windows 10

1. In the lower right corner of the screen you will see a wireless indicator either:

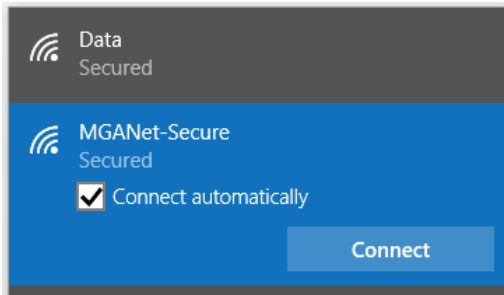

Disconnected

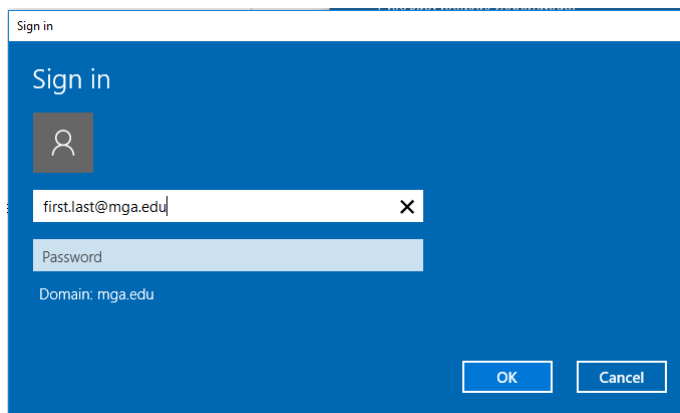

Connected

Left click on the icon to bring up available connections.

2. Select “**MGANet-Secure**” and click “connect.” If you are in the dorms, you must select “**ResNet-Secure.**”

3. You will be prompted for a username and password. Enter your MGA email address and password and click “OK.”

4. When prompted with “Continue Connecting,” click “connect” to save the DigiCert Global Root certificate to your “Trusted Root Certificate Authorities” list.
