

## Microsoft Campus Agreement (MCA) Product List – HOME USE

### Office Professional Plus 2010

- Access
- Excel
- InfoPath
- OneNote
- Outlook
- PowerPoint
- Publisher
- Word

### Windows 7 Professional - Upgrade Only

- You must have a qualifying OS on your computer to install the upgrade. The qualifying operating systems include Windows 7 (32- or 64-bit), Windows Vista (32- or 64-bit), Windows XP (32- or 64-bit, Windows 2000 Pro, Windows NT Workstation 4.0, Windows 98 (including 2nd Edition), and Apple Macintosh.
- It is cheapest if you purchase Windows at the same time you purchase your computer and then upgrade to the professional version through the Home Use program. If your computer did not come with a qualifying OS, then you will need to purchase a full version of Windows.
